

## STRATHCONA NEWS

### LOCALS.

A large audience enjoyed the "experience social" last night in Knox Presbyterian church. The chair was occupied by Professor Edwards and a large number of the ladies told in rhyme their experiences in securing money for the work of the mission board. The total proceeds were announced as the excellent sum of \$102. The first prize for the best rhyme went to Mrs. Chapman. The largest amount \$16, was collected by Mrs. J. J. McKenna and the largest amount for an unmarried lady \$11 was secured by Miss Hatten. During the evening there was an enjoyable program of music and recitation.

The last of the steel girders was set in place on the Mill Creek bridge on Saturday and it is expected that the bridge will be ready for teams before the end of the week.

The regular meeting of the city council will be held this evening.

Farmers from the district anticipate that considerable disking will be in progress this week. Some of the farmers residing east of the city expect to begin work this week.

The members of the local lodge of the Sons of England Benevolent Society will hold their annual concert in the basement of the Metropolitan Methodist Church on Thursday next, March 28th. It is open to members and also friends by invitation, to be followed by a concert in the lodge room. The supper will commence at 7:30. Tickets can be had from the secretary, E. Wray, Whyte Avenue, also of the committee, A. J. Brown and J. G. Pike.

The present year promises to be a good one for association football in Strathcona. The young men's club will have a strong team, and the Sons of England and the old football club will also put teams in the field.

**Brakeman Killed at North Bay.**  
North Bay, Mar. 28.—Hugh Corbett, a C. P. R. brakeman from North Bay, was killed Monday night at Carleton place by falling beneath a moving train.

## Water Pan Is Correctly Placed In The Sunshine

Few people realize the importance of the water-pan. Yet, without the moisture evaporated from the water in the pan, the warm air passing through the registers is harsh and dry. It is hard on your lungs and on your furnishings.

Now, the water-pan must be correctly placed to be of any real use. If it is placed near the bottom of the furnace (see lower illustration) the moisture has a long route (see arrow) to travel before it reaches the pipes leading to the rooms. It must pass alongside the fire-pot and radiator, and the terrific heat from these dries out nearly every particle of moisture ascending from the pan. Very little reaches the pipes or passes through registers.

Now, notice the location of the Sunshine water-pan. It is placed over the fuel door. The moisture takes the short, direct route to the pipes leading to the rooms. You can always have moisture-laden, healthful air passing through your registers, provided you keep the Sunshine water-pan filled with water.

If you value your health you'll have our local dealer install the Sunshine, with a guarantee to heat your house to your entire satisfaction.

# EVANSTON

Edmonton's Happy Homeland

Edmonton's Happy Homeland

## On the North

of Evanston we have a few lots selling at a little lower than \$550.00. There are only a few, but every lot is absolutely guaranteed to be high and dry. Their selling price is

**\$275.00**

One of the most striking remarks out many we received yesterday from purchasers of EVANSTON was that the property was an "absolutely inside proposition situated in such a position as to practically guarantee big increases in value within a reasonable time.

Such is the case, sir, and the logical sequence of events must enhance the value of this property.

Yesterday we sold a number of these lots—some of them being amongst the best, but there are still some splendid opportunities available.

EVANSTON is surrounded by some of the most desirable properties on the south; but they are unattainable yet and even when it is put on the market the prices will be so high as to make this present proposal one of great interest to you.

On the north of EVANSTON there are sub-divisions selling at prices little below ours, but their situation is far inferior to EVANSTON, which is on the main Alberta Avenue. Remember this point—it is of great value to you as a property purchaser.

## On the South

of EVANSTON is located the well known and valuable Hudson Bay Reserve immediately opposite on the south side of Alberta Avenue—this property will considerably enhance the subdivided property which we are selling. Surely as a keen Real Estate buyer you can see the wisdom of buying EVANSTON NOW!

**Lots \$350 to \$650. Terms 1-3 cash. Balance 4, 8, 12 Months**

## TEXT OF REPORT ON POWER PROPOSITION

Report Submitted by Superintendent and Commissioner of Electric Light and Power Company's Office to the Hydro-Electric Power to the City.

To the Honorable the City Council,  
City of Edmonton.

Gentlemen:

Subject: Proposition of Edmonton Heat and Power Company, dated March 14, 1911.

1—Referring to the committee report adopted by your honorable body March 15, 1911.

2—Report of whole committee on power hydro-electric proposition as per the Edmonton Power and Lighting Co.

The council met in committee of the whole on March 14, and after considering the proposition of the company to purchase of power from the city of Edmonton, we decided to refer this whole proposition, as presented to us by the company, to the superintendent of the electric light, street railway and power plant departments, and Commissioner of Electric Light and Power, for full analysis, explanations and recommendations, particularly as to cost of horse power at proposed prices submitted by the company to the city in its proposition, now before us. And in the meantime the whole matter be held in abeyance until such time as the above named superintendent and commissioner have reported in full to the council.

3—Pursuant to the above we have analyzed the proposition referred to and now we beg to submit the following report, viz:

(a)—Referring to the first proposition, which is to sell to the city a complete plant generating and delivering 25,000 horse power for the price of \$1,000,000, the total yearly cost for 25,000 horse power as given in this proposition is \$121.21.

(b)—By the time the plant in question would be done up to us, we would have our present steam and gas plant further developed to represent a capital investment of at least \$1,000,000, and it is our opinion that the plant would have to be maintained in activity. Therefore, it is fair to add to the above amount, which is based on a capital expenditure of \$1,000,000, one-third of said expenditure, or, say, \$333,333.33.

(c)—The total yearly expenditure for an output of 25,000 horse power, with our steam and gas plant held as reserve, would then be \$1,333,333.33.

(d)—The cost of each horse power per annum is given by the company in their proposition at \$121.21, but adding one-third to it on account of maintaining our present plant, the price per horse power per annum on the basis of 25,000 horse power output would then be \$155.61.

(e)—The above figures are of course based on a load factor of 100 per cent, and borrowing from the company's proposition the argument in that paragraph relative to cost of cost, viz:

"As full load is a very important condition it would not now be realistic to consider commercially as the load factor will not exceed 50 per cent."

We should now revise the above figures to correspond to this 50 per cent load factor, and on the basis of this assumption that the figures given by the company are approximately correct, the cost per horse power per annum based on the company's 25,000,000 proposition, would be \$195.25.

And if we add to this one-third to cover the fixed charges upon our steam and gas plant maintained in activity as before, the cost per horse power per annum would be \$263.75.

(f)—That as a matter of fact our present load factor is not so much as 50 per cent, of the yearly peak load output, it is unlikely that we would reach a percentage of 50 per cent, for some years to come and possibly a 30 per cent, load factor for 25,000 horse power. We estimate that our present load factor is not over 25 per cent, or say, a 3,000 horse power output. Therefore, it would be many years before we could expect to reach a 50 per cent, load factor for 25,000 horse power. It is easy to estimate that for a long period of time at least the cost per horse power actually used per annum and the \$263.75 proposition would be more than double the figure above given and it is safe to state that for a long time to come the actual cost per horse power actually used would exceed \$100 and this proposition.

(g)—Referring now to the company's second proposition which is to sell 10,000 horse power for a period of five years, at a minimum of 10,000 horse power per annum, but rate, we have to consider in comparing this price with the cost of steam power, etc., that it represents only cost per horse power based upon a load factor of 100 per cent. In other words, we have to bear in mind that the power purchase under this proposition would cost us \$27 per horse power per annum whether we used the power or not, and that we would have to pay this price for the full 10,000 horse power. Therefore, assuming now that we could use this power on a 50 per cent load factor basis (which basis by the way would be reached much earlier than the corresponding basis for 25,000 horse power hereafter referred to) the actual price per horse power actually used would be three and one-third times \$27, or 190 per horse power per annum.

(h)—In view of the fact that under this second proposition we would save on our hands and be compelled to maintain auxiliary and reserve our present steam and gas plant, we should add to the above price of \$190 the cost of carrying our present plant, which we have heretofore computed at \$16.41 per horse power per annum on a basis of a \$1,000,000 investment with 50 per cent, load factor and with this addition the actual cost per horse power per annum with the 227 initial rate, would be \$216.41.

Referring further to the paragraph "Full load is a very important condition it would not now be realistic to consider commercially as the load factor will not exceed 50 per cent," it is shown as follows, viz:

"Our engineers, Messrs. Ross & Holgate, of Montreal, whom opinion is without question, give us the following information, based on a 50 per cent load factor:

(1)—The cost of power generated by gas power per horse power, \$22.30.

(2)—The cost of power generated by steam power per horse power, \$22.30.

\$200,000 LAMBERT MILK FRIED.

Port River Lumber Co's Shingle and Saw Mills Destroyed.

Vancouver, Mar. 28.—Fire broke out in the shingle mill at the Port River Lumber Company mill at 2 o'clock this morning and within four hours the shingle mill, saw mill and practically the whole of the lumber yard were consumed with a total loss approximately \$200,000.

## A HUMAN USTRICH.

From the States is reported the death of a human ustrich, and that it would an attempt to save the man's life, the doctors removed from his stomach a watch chain, several keys and a number of other things. No wonder he died, for such things are not to be worn in the stomach.

It is the cause of pain after eating of foodstuffs which are indigestible, indigestion, loss of appetite and many other ailments. It is the only way for all such troubles is to remove the stomach, and to have the stomach removed, the patient will not be able to eat, and will die.

It is a common mistake to think that a human ustrich is a man who is very fat. It is not so. It is a man who has a very large stomach, and who is very fat.

## DEMOCRATS ARE NOT AGREED ON PROGRAM

President Taft Urges Leaders to go Non on Tariff Lines. Advises Them to Content Themselves With Passing Reciprocity Agreement.

Washington, March 28.—There is talk here today that the extra session will run on late into the summer. This may very well be the case, but the talk is based on the Republican belief that the Democrats will not hopelessly involve in their tariff program, while as a Democratic tariff program has not yet been formulated. The fact that the Ways and Means Committee has devoted its entire time in recent days to fixing other committees instead of having hearings on the tariff does not look as if an extended revision were in contemplation.

This is a matter, however, that will finally be decided at the Democratic caucus on April 1. The President has been in consultation with the Democratic leaders, and he is urging them to go slow and content themselves with passing the Canadian reciprocity agreement.

There is, however, a feeling among some Democrats in favor of showing their strength by refusing to support the tariff program, and of showing their complete disapproval of the tariff program by refusing to support the tariff program.

There is, however, a feeling among some Democrats in favor of showing their strength by refusing to support the tariff program, and of showing their complete disapproval of the tariff program by refusing to support the tariff program.

## AN IMPETUS TO WORK OF ANGLICAN CHURCH

Will Be Given This Year By Arrival in Western Canada of More Mission Workers, Sent Out by Church in England—Four Young Men Coming to This City.

The work in aid of the Anglican Church in Canada, which was inaugurated last year by the Archbishops of Canterbury and York, is to receive an additional impetus this spring. There are three centers at present from which mission work is being organized—Regina, Edmonton and Lethbridge. Additional workers are expected at each of these centers. Last year sixteen workers came to Edmonton, three to Lethbridge and nine to Regina.

The Edmonton district is organized and supervised by the Rev. W. O. Boyd, of the Church of St. Faith, Lethbridge. The names of the whole number of workers are not yet given out, but four others, in addition to those already here, have been selected in the old country. These are: Mr. J. B. Pennington, B.A. (son of the vicar of Leeds), of Christ Church, Oxford; Mr. J. B. Pennington, B.A. (son of the vicar of Leeds), of Christ Church, Oxford; Mr. J. B. Pennington, B.A. (son of the vicar of Leeds), of Christ Church, Oxford.

**THE GAS PLANT IS NOW  
READY FOR OPERATION**

**Work on Gas Engine Is Completed—Commissioners Uncertain Unauthor-  
ized Contract Made By Ex-Superin-  
tendent of Power Plant for Hauling**

That on Tuesday or Wednesday of this week the gas engine installed at the power plant by the Power & Mining Machinery Co. will be put into operation was an announcement made by Superintendent Deere in a report submitted to the city commissioners at their regular meeting yesterday afternoon.

Enquiries made by the commissioners have revealed the fact, embodied in a report of Superintendent Deere, submitted at the meeting, that under an agreement made by ex-Superintendent McNaughton with

ing haul at the plant by this contractor for a cost more than double that for which the department could itself undertake the work. The contract was entered into without the authority of the commissioners in Sept. 1916, and extends to July 31st of next year. The contractor is to haul twenty-five tons per ton for hauling coal from the storage pile to the plant, the city agreeing to employ two teams continuously. From March 11th to March 17th, 559 tons were hauled at a cost of twenty-five cents per ton, making a total of \$139.75, the time occupied being 52 1/2 hours. The superintendent estimates that the

McColl Bros., having failed to remove the boiler compound stored some time ago at the power plant, the superintendent was instructed to charge storage from date.

The following tenders for supplies for the waterworks department for 1917 were awarded: Cast iron pipe, 100 ft. 12 in. Iron Contraction Ltd., Montreal, approximately \$28,900; gate valves, The Canadian Fairbanks Co., \$500; eleven miles of trolley wire at 17c per pound, The Eugene Phillips Electrical Works, Winnipeg.

Chief Lander reported that the new No. 5 fire hauler was now in service.

engine, bee wagon and four horses,  
and manned by seven men.

**CHINESE CITIZENS LOYAL**

A deputation of the Chinese citizens of Edmonton will be present at the meeting of those concerned in the organization of the coronation celebrations to be held in the council chamber tomorrow evening. The citizens who have come from the Orient to make their homes in Edmonton have already declared their desire to take some part in the effort to do honor to the sovereign of the great empire whose free institutions they have

are determined that they will not be outdone by the other non-English speaking residents of the city. Eager to demonstrate their loyalty several of their number invaded the city hall last evening under the impression that the meeting was being held. They were informed of the date of the meeting and declared their intention to be present.

## DISCUSS SYSTEM OF ACCOUNTING

AT MAYOR'S REQUEST THE AUDITOR SUBMITS ADVERSE REPORT.

Echoes of the civil trouble threatened for a moment to disturb the peace of the special meeting of the city council held last evening, when the city auditor submitted a report, prepared by special request of the Mayor, containing criticism of the system of accounting established recently by the commissioners and recommending a return to the system previously in use.

Ald. McKinley regarded the action as an attempt on the part of the Mayor to take advantage of Commissioner Boulton's absence in Seattle, and expressed his opinion in quite unmistakable terms. "Oh, we understand," he said with a smile, "when Mayor Armstrong explained that he was acting upon a disinterested concern for the efficient conduct of the city's business, 'on the surface, however, it looks just like another slap'."

**Monthly Reports.** The auditor stated that under the new system it would be very difficult to present monthly reports in a form as complete as that which would be possible under the old system. "It is strange that you did not know anything of the details of this system a few weeks ago," said Ald. McKinley to the auditor. "I understood that you expressed the opinion quite recently that the new system was a workable system."

Ald. Grindley said that he understood that the auditor had expressed dissatisfaction with the system, and the auditor, who was present, was called upon.

"I did say that it was a workable system, and it is," he said. "It is a question of a choice between systems. This system can be worked through I do not think it is as good as the other."

**Is Doing No Damage.** "It is doing no great damage at the present time, I suppose," asked Ald. McKinley. To which the auditor replied in the negative, but expressed the opinion that if it was deemed advisable to make the change it could not be made too soon.

"I suppose it is merely a matter of opinion," remarked Ald. Hyndman, "and that another auditor, whose ability you would not question might favor the system of centralized accounts."

"Yes, certainly," was the auditor's response. The report was finally laid on the table, to be taken up at the regular meeting to be held next Tuesday.

**Report on Power.** A joint report of Commissioners Boulton and the superintendent of the light and power department, the street railways department and the power plant respectively, on the pro-

position for the supply of hydro-electric power to the city by the Edmonton Heating & Lighting Co., was submitted and won general commendation from the auditor for the completeness with which it set forth the facts to be taken into consideration in the main it followed the line of the previous reports submitted by Commissioner Boulton and showed that it was favorably considered by the council.

The first of the alternative offers of the company is for the sale of the completed plant delivering 30,000 h.p. for the price of \$100,000. Taking into consideration the investment in the plant, it was estimated that it would be necessary to hold in reserve, and the fact that for many years the city could use only a fraction of the power developed, it is estimated that the cost per h.p. for a long time would exceed \$100.

**Cost Would Be High.** The second of the alternative propositions is to sell 10,000 h.p. for a period of thirty years for \$27 per h.p. per annum. All things being considered, that actual cost per h.p. per annum under this proposition is estimated at \$10.

The report will receive further consideration at a future meeting, when the several power propositions before the city will again be discussed. To these a further addition was made last evening when a letter was received from J. S. McArthur, writing on behalf of a citizen whose name was not given, offering to take the rights acquired on the Brazeau River eight-and-a-half miles from Edmonton, in Township 46, Range 18, West of the Fourth Meridian. It is stated that with a capital expenditure of \$1,000,000 forty thousand h.p. could be developed at this site and delivered by way of Wetsakwin to Edmonton. The output it is said, could be increased by a comparatively trifling expenditure on the construction of a dam, to 60,000 h.p.

Ald. McKinnis stated that two years ago he sent an engineer to inspect this site and that the engineer submitted an unfavorable report. The matter was referred to the commissioners to obtain further information for the consideration of the council.

**Estimates Approved.** A number of items in the estimates not previously passed were given consideration. Chief among these was the provision for the purchase of seven teams and harnesses for the large stable on the property which is proposed to purchase in block 16, River lot 14.

Five teams and harnesses are required by the city engineer's department and six by the health department. Some doubt had been expressed by several of the aldermen whether it would not be cheaper to hire teams when needed. This proposal, however, was finally abandoned. An appropriation of approximately \$1,000 will be made for the erection of the building, which will accommodate the teams. An appropriation of \$1,000 will be made for the erection of the building, which will accommodate the teams.

**FILES CURED IN 10 TO 14 DAYS.** PAZO OINTMENT is guaranteed to cure any case of Itching, Biting, Biting or Pruritus. Piles in 5 to 14 days. No money refunded. 40c.

of \$10,000 for the erection of a warehouse for the use of the electric light, waterworks and telephone departments, was also approved.

The city solicitor was instructed to prepare a by-law authorizing the purchase for the purpose of the sale of the present public hospital. The city is to be sold to the purchaser for the purpose of the sale of the present public hospital. The city is to be sold to the purchaser for the purpose of the sale of the present public hospital.

**Request Refused.** The request of the Standard Coal Co. for an extension of the lease of coal rights on property owned by the city in the neighborhood of the exhibition park will be refused. The company holds that the city is bound to give this extension under the terms of the lease of the property to the company by the persons from whom it was purchased by the city. The city solicitor, however, has held that the clause upon which they base their claim is not binding upon the city.

The medical health officer will be asked to submit a full report on the recommendation of the board of health that a food inspector be appointed.

A copy of a resolution was received from the local chapter of Daughters of the Empire, urging upon the city the consideration of some adequate scheme for town planning with a view to future growth. They will be advised that the parks committee has the matter under consideration, recommending the purchase of property from the Alberta Agencies for the erection of Union Stock Yards was laid on the table for consideration at a future meeting. The Agencies offer to sell to the city two hundred and thirty-nine acres of the east half of section 2, township 52, range 24, W. 4M. for its lump sum of \$115,000 and offer an option of sixty days from March 21st.

**THE SHEEP COMMISSIONERS** Are in Session at Lethbridge. Important Meeting of Board.

Lethbridge, March 27.—Sheep Commissioners Rich and Hutton are here today, but owing to the absence of some prominent sheep men, no session was held. Session will be held tomorrow. Talking informally with some sheep men the commissioners said the Lethbridge sitting will be the most important they have yet held, the owners representing about 50,000 sheep.

Those present today were: D. R. McCaig, Alberta Sheep Co., 2,000 sheep; Mr. Robertson, Chin Coulee, 2,000; C. G. Grant, Coulee, 300; E. J. Cook, Lethbridge farming company, 500; Mr. Havel, Chin Coulee, 500; and Joseph Young, Seven Persons 4,000.

Nell Walker, of the Argyle sheep ranch, owning 7,000 sheep and about 300 more with bands of two or three thousand each will likely have representatives at tomorrow's session. These sheep owners said ten per cent would be the minimum loss sustained during the past winter, although a large part of the range was burned off last fall and the drought left the range in very poor condition.

## TRY TO FIX BLAME FOR LOSS OF LIVES

Two Grand Jurors and a Score of Officers are charging the City with Tragedy of Saturday Night.

New York, March 27.—The fixing of the blame for the loss of 114 lives of the Washington Square fire on Saturday night is the subject of the proceedings of the grand jury of the district attorney's staff, the fire marshal, the fire department, the state labor department and borough presidents. A grand jury of 12 members of investigators collected every scrap of available information, and an additional grand jury in a formal session presented to the court of general sessions, offered their aid to the district attorney and declared that some one should be prosecuted for the disaster.

The grand jury found evidence that doors at exit ways, inwards, and crumpled fire escape ladders, and that the fire escape ladders were not properly fastened to the roof and the practice of lighting cigarettes a few minutes before leaving time, all this and what is to be foreseen out will be placed speedily before the grand jury for action, district attorney.

The grand jury also found evidence that the fire department summoned owners of half a dozen faulty structures to the police court as a preliminary step to a far-reaching investigation of firemen. One man was held for violating the law, but the grand jury was announced that the fire department would be granted orders to search for the cause of the disaster.

**Found a Fire Drill.** "So far as I can answer," he said, "there has never been a fire drill in this city. It is a very serious matter to take 700 girls three hours to reach the street by the one fire escape at this building. Nine-tenths of the employees cannot speak English, yet I could not find a sign in Yiddish or Italian pointing out the fire exit."

The fire marshal said he was convinced that a cigarette lit by a fireman had started the fire. The fire was started by a cigarette lit by a fireman. The fire was started by a cigarette lit by a fireman. The fire was started by a cigarette lit by a fireman.

**Buried in Single Grave.** The unidentified will be buried in a single grave to give relatives and friends a chance to identify the body. The body was found in the fire. The body was found in the fire. The body was found in the fire.

**Charged With Robbing Train.** Brandon, March 26.—Percy Pamphilon, arrested in Winnipeg on Saturday night, has been brought back by a five-man posse to face a charge of robbing a till of the drug store where he was employed.

## Two Wonderful Cures

ZAM-BUK HEALS TERRIBLE INJURIES.

Just think of a little fellow of two years burned so badly that the flesh peeled off. That was the case of the two-year-old son of Mrs. A. Peters, of Wilton, Ont. The little one's arm, from his hand to his shoulder, was terribly burned, and the tendons and muscles of the arm badly injured. He received medical treatment, but the shocking burn did not get better—the arm would not heal. An ordinary treatment. For long it was hoped the arm would get better, but hope seemed in vain. The family then turned to Zam-Buk and note the effect. Mrs. Peters says—

"A few applications gave him ease, and the arm then began to heal. In a few weeks they were completely healed. Not only so, but Zam-Buk had such a beneficial effect on the injured tendons and muscles, that these too recovered their usual functions, although they had previously become shrivelled and almost useless."

This is not the only proof of Zam-Buk's wonderful value we have had in our family. My father, who is 76 years old, has found Zam-Buk highly beneficial for rheumatism. He has been troubled with this disease for twenty years, being unable to get more than temporary relief from doctor's prescriptions, but after persevering with

## DISTRICT NEWS

## STONY PLAIN.

Bulletin News Service.  
J. B. Hutchart, Mrs. R. Kuhn, L. O. Russell, T. A. Bower and J. P. Crow returned this morning by G.T.P. train from Edmonton.

Mr. Jacob Miller went to Edmonton yesterday on business.

Philly and Louis Miller returned on Wednesday from Banff.

The programme for the next meeting of the Literary Society and Social Club to be held in the town hall on next Wednesday evening will consist of speeches about the advantages and disadvantages of the professions and trades of the different speakers.

A. E. Smith opened a meat market under the management of Thos. Davis in the old opera house building this week.

Jacob Littenberger has bought a hotel in Mundare.

John Willoughby has returned from a three months trip to Berlin, Elmsira and other towns in Ontario, the other day. He says that there is no place good to him as Sunny Alberta and that Stony Plain district is good enough for him.

Stony Plain, March 24th.

## LEDUC.

Bulletin News Service.

Krnes Loggin, Manitoba, is here on a visit to his brother, A. N. Loggin.

Miss Mammie McKenna is spending a few weeks at the home of her parents before returning to Edmonton.

Mrs. (Dr.) Baker and her son Xavier, have returned from a brief visit to British Columbia.

Mrs. Jordan, formerly of Leduc, made a visit to Mrs. Gravelle and Mrs. Crough.

Miss R. M. Abram, stenographer in Mr. Meeker's office here, has accepted a similar position in a Wetaskiwin law office.

Mrs. Blais, sister of J. P. Blais, has come from Rivey Eye, Minn., to reside permanently in Leduc.

Rev. Father Simon, a Franciscan missionary from Edmonton, will open a five-day retreat in the Catholic church on Pasqua Sunday.

Rev. Father Rock, of the seminary at Albert, was the guest of Father Caragher during the week. He was on his way to Strathmore to open a new parish.

Miss Mammie King has obtained a remunerative position in the Wetaskiwin post office. She assisted at the post office here during Miss Riley's absence. Her place here is filled by Miss Lucy Wright.

In the Merchants' Bowling League matches the Leduc-Granville Co. defeated the C. P. Baid & Co. team in two straight games on Monday night. The next match of the series will be played between the staff of A. M. Anderson and the victors of Monday night.

The death took place at Sunnyvale, of Helena, the ten-year-old daughter of Mr. and Mrs. John Giff.

Friends of the family attended in three augurs at the funeral on Thursday afternoon to show their sympathy with the sorrowing family.

The funeral service was conducted by Rev. Mr. Jutner, and Rev. T. T. Baker, also spoke in feeling terms at the graveside. The teacher and pupils of Sunnyvale school, with whom the deceased, from her kindly and playful disposition, was a general favorite, presented a floral wreath. Mr. and Mrs. Giff have the sympathy of a large circle of friends in the untimely death of their bright little girl.

The fire brigade saw active service for the first time this year on Tuesday morning at a fire which broke out in the attic of the Leduc Produce company's store. The brigade was on the ground in record time and the fire extinguished before any headway had been made. The fire was caused by an overheated stove pipe.

SA meeting of the Leduc school board was held on Tuesday night, all the members being present. A bribe was passed to borrow \$1,000 to meet current expenses.

D. A. Muir, of Quebec, arrived with a car load of settlers' effects to take up farming at Clearwater. His wife and family are coming to join him in April.

The sports to be held on May 24th under the auspices of the fire brigade have been postponed until later.

Mrs. G. Hooper is confined to her bed with rheumatism.

Henry Kipp is looking for a good team of horses.

Eastburg, March 24th.

## EDISON.

Bulletin News Service.

Mr. Legasse will finish moving in about one week. He reports a good run this mill, some twelve buses north of Edison and will likely turn out a fine bunch of lumber next winter.

Tanner Baldwin and Berry have taken out nearly twenty-five loads of ice from Knox's lake.

Miss Nellie Pollard is on the sick bed. Mr. Amos from Leduc was out twice.

A very good time was spent at the home of Mac Grangers last Friday evening and dancing was kept up until an early hour.

John Gieskowski had a bad accident happen his saw mill last week. His engine house caught fire and damaged his engine to about three hundred dollars.

Omer Houle is making good progress in the Pembina district thrashing and sawing wood. He has a few jobs around Edison.

Porter Bros. have been busy crushing grain this last while back.

The M.W.A. of Edison have a bunch of lumber saved at Mr. Legasse's mill. Mr. Olson has a fine bunch of logs at the mill.

Edison, March 24th.

## HYLEY.

Bulletin News Service.

Miss Clara Massey returned to her duties in the store yesterday morning.

Mr. Thomas Thirk, of Banff, drove across in Hyley Wednesday and returned today, accompanied by his daughter, Miss Olive, and her friend, Miss Evelyn Mitchell.

## BANFF.

Bulletin News Service.

Thos. Thirk is putting in 80 feet of cement sidewalks in front of his brick store as soon as spring opens. Others will follow and there is no reason why it should not extend the full length of the block before fall.

This summer will see Banff with and as Banff contains some very fine scenery. The boys have already started the organization of a club, and on his 27th birthday some of the good players, we predict some lively times this coming season.

The village has just completed a new fire hall and purchased a chemical fire engine which arrived some time ago.

The Banff public hall has changed hands and is now owned by private parties, who will put it in first class shape.

E. Lunde, the jeweler, has sold out to some out of town parties. Mr. Lunde expects to leave town.

Banff will celebrate Dominion Day this year and has already begun operations to that effect.

Banff, March 24.

SNOW FALLS BRING HOUSTE.

Some Items of News from Southern Alberta City.

Letbridge, March 27. — Recent snow falls in Fisher Creek country have supplied the necessary moisture for the winter wheat, which has been growing in a fine state of health. In that district, the crop looks promising.

At large acreage of spring wheat will be sown.

J. P. Stuart, formerly a prominent manufacturer of Canada, being president of the James Stewart Manufacturing Company, Ltd., of Hamilton, Ontario, has been elected manager of his daughter, Mrs. Mark Beards.

aged 42. He is married by his wife, living here, and his son, N. L. Stewart, a commission merchant, Toronto.

Postmaster E. N. Higginbotham has received word that street delivery would start April 2nd.

W. J. Lawton, of Victoria, B. C., has been elected manager of the J. A. R. Bank, which has been re-named the Eastern Township Bank.

Retain Level Crossings.

Pinning, March 27. — A motion to rescind the agreement with the M.T.W.A. was lost tonight in the city council. The agreement allows the M.T.W.A. to have a franchise in the city which the council is opposed. Its opposition being strengthened by a resolution from the school board, pointing out that the M.T.W.A. is not attending several schools in the immediate vicinity of the proposed crossings.

The Trades and Labor Council also sent in a resolution condemning the proposed crossings.

Winnipeg, 60-61-62-63.

Pinning, March 27. — John R. Moore, aged 64, an old-timer of 1822, formerly of Montreal and Hamilton, died very suddenly after dinner this evening at his home, 300 Hamilton street. He was first manager in the insurance of the George L. Ward, Bank, and was a member of the Hamilton lodge of the A. F. & A. M.

## MEN AND WOMEN CURED DAILY

## BY "FRUIT-A-TIVES" THE GREAT FRUIT MEDICINE

Few people realize the enormous amount of good which "Fruit-a-tives" has done and is doing today. "Fruit-a-tives" is curing hundreds of others from Rheumatism, Neuritis and Chronic Headaches—hundreds of others who were almost frantic with Stomach Trouble, Indigestion and Bilelessness—still others with Kidney and Bladder Irritation—many with apparently "hopeless" cases of Constipation, Nervousness and Skin Diseases.

"Fruit-a-tives" will do the same for you if you give it a trial.

You can get it for 50c. or trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

## CREATED A MONOPOLY.

This is Said to be Reason Why Amendments to Charter Were Disallowed.

Ottawa, March 27.—The Ontario statute passed in March, 1910, amending the charter of the Chartered Accountants' Society and which was disallowed because of the representations made to the Governor-General through the Colonial Secretary, who took action because the chartered accountants institute of Great Britain stated that the bill tended to create a monopoly. The institute asked for certain amendments which were refused, on account of which refusal the veto power was exercised.

## BROKERAGE OFFICE RAIDER.

New York Firm Fills Under the Eye of the Authorities.

New York, March 27.—After a raid today on the stock brokerage offices occupied by Wiener and Company and the Standard Securities Company, the post office inspectors charged that irregularities amounting to more than two million had been brought to light.

Inspections in excess of ten millions have been credited to the two companies during the last few years. The charge is using the mails to defraud by worthless stocks of California, Diamond Oil Company and Amalgamated Mining and Oil Company, five millions of stock in the latter company alleged to have been disposed by those charged.

Archib and Emmet R. Wiener, owners of the two companies, and Grayson R. Trumbull, chief clerk, were arrested.

A New Official.

Vancouver, March 27. — Thos. A. Giff, formerly of Banff, has been engaged in the Ashdown Company. He has a number in Montreal and a wife and two daughters in Winnipeg. He was a member of a Hamilton lodge of the A. F. & A. M.
